

SEPEX Scholarships for the Dissemination of Research Works Call 2025-2026

Rules

OBJECTIVE: The Spanish Society of Experimental Psychology (SEPEX) has as its primary goal the dissemination of scientific research. One way to achieve this goal is by promoting young researchers who, at the same time, collaborate in laboratories led by members of the society.

SCHOLARSHIPS: A total of 10 scholarships will be awarded, each valued at 300 euros.

APPLICANT REQUIREMENTS: The call is aimed at final-year undergraduate students, postgraduate students, or predoctoral or postdoctoral researchers (thesis defense date less than one year prior to the closing date of this call), who have not received the same grant in previous calls. In addition, applicants must:

- Be members of SEPEX or have applied for membership at the closing date of the call.
- Submit an academic curriculum (CVA).
- Submit a research project, using the form attached to the call, under the supervision of a Full Member of the society. The project supervisor must be a Full Member (Miembro Titular) of the society by the closing date for applications.

DOCUMENTATION: The documentation must be sent as an email attachment to: secretaria.sepex@gmail.com. This documentation must include the application form containing the research project and the academic curriculum, using the templates available on the SEPEX website. Both the CV and the project may be written in Spanish or English.

DEADLINE: The application period will be open from September 11, 2025, to October 9, 2025. The scholarship will be made effective at the next SEPEX congress (September 2026).

OBLIGATIONS: Awardees must carry out the proposed research in time to present it at the next SEPEX congress (September 2026), in the form of an oral presentation or poster. Additionally, before the congress, they must also submit to the journal *Ciencia Cognitiva* (<http://www.cienciacognitiva.org/>) a scientific outreach article related to the project, either empirical or a review. Finally, to receive the granted support, awardees must be members of SEPEX.

SEPEX appreciates, although it is not a requirement to receive the award, that publications derived from the awarded projects acknowledge the support provided by SEPEX.
